Le Vin

Wine Tasting

A new luxury beauty brand to the scene is Le Vin, a range of products that combine organic with scientific technology using, yes you read right, wine. A vitamin rich complex of Chardonnay grape seed extract with organic essential oils was created by New Yorker Ken Heng whose frequent trips to the Napa valley uncovered some hidden gems. His main ingredient, Vita-vino Actif, helps to prevent and protect against ageing. We love the face cream and both the face and eye serums. Delicious. From £57
