

Unique and

Wonderful

The pages of The Healing Arts Guide are always filled with interesting companies creating diverse products.

In this issue, we shine the spotlight on the following: Areaware, Butter London, Essence of Life/Le Vin, Herbwalk, Nelsons, Posh and Co, Terralini. The universe knows. Making a difference with passion and execution, these companies are revolutionizing the wellness market.

Herbwalk

Herbwalk creates antioxidant organic products with proven ingredients. The products and treatments are offered mostly in four and five star resort spas. They started out with the first wine therapy body care line, CLAVIE, in 2003 using a Chardonnay grape seed extract from Burgundy, which is seven times more potent as Vitamin E as an antioxidant. Since then, they have introduced a facial skincare line, Le Vin. Again based on wine therapy, this contains the proprietary Vita-vino Actif, a potent nutrient and antioxidant complex in a special delivery system, at the same time combining high percentages of peptides with organic ingredients.

Highlights

- contains Vita-vino Actif, a revolutionary nutrient and antioxidant complex of Chardonnay grape seed extract, resveratrol, Vitamins A, B, C, D & E
- medical grade actives in high doses
- natural and certified organic botanicals; paraben-free
- tested on wine lovers, not animals
